

ALPHA

CUSTOM YACHTS

AWARD-WINNING, WORLD-RENOUNDED AND CUSTOM-BUILT

ALPHA CUSTOM YACHTS

The detail and innovation found in each Alpha Custom Yacht is truly an experience to behold. Built by yacht lovers for yacht lovers, family-owned Alpha Custom Yacht has surpassed the limitations of traditional yacht design and forged a previously inconceivable standard of design and engineering for yachts from the 30-meter size range.

JORGE AND ROBERTO ABOUMRAD

Challenge the limitations of traditional yacht standards, designing each of the vessels in the Alpha Custom Yacht's collection to accommodate family togetherness and maximize comfort.

A L P H A
CUSTOM YACHTS

THE BEGINNING

Over three decades ago, they started in the industry by establishing Performance Boats, now Mexico's biggest boat dealer. But, they noticed their perfect yacht do not existed so they decided to create it themselves. Inspired by real yacht owner's needs, they went beyond conventional design, setting a new standard in yacht engineering for 30-meter yachts.

Highlights:

- Draft 1.68 meters / 5 feet
- Range at economical speed 3,000 nautical miles
- Maindeck ceiling height 2.20 meters

Lenght Overall:	35.5 m	116'
Length Waterline:	32.2 m'	105' 8'
Max Beam:	8.41 m	27' 7"
Draft at Full Load:	1.9 m	6' 2"
Displacement at Full Load:	About 165 tons	363,763 lbs
Gross Tons:	About 239 GT	
Gross Tons with Enclosure:	About 260 GT	
Fuel:	24,000 liters approx	6,340 U.S. Gallons
Water:	4,000 liters approx	1,056 U.S. Gallons
Waste Water:	4,600 liters approx	1,215 U.S. Gallons
Owner & Guests Accommodation:	12 persons in 5 cabins and 5 bathrooms + day head	
Crew Accommodation:	6 persons in 3 cabins and 3 bathrooms	
Exterior Design:	Giorgio M. Cassetta Design	
Interior Design:	Giorgio M. Cassetta Design	
Naval Architecture:	Laurent Giles Naval Architects	
Engineering:	Shipyard / Laurent Giles Naval Architects	
Building Material:	Aluminum Hull and Aluminum Superstructure	

Range

Economical Speed (10 knots)	2,400 nautical miles
-----------------------------	----------------------

Propulsion Details

Engine Options	Max Speed	Cruising Speed
Max Speed (with MAN V8 1.300 hp):	15 kn	14 kn
Max Speed (with MAN V12 1.650 hp):	16 kn	14.7 kn
